TECH SKILLS

Front End
Javascript, ES6, React, HTML5, CSS3, Git, JQuery, NPM

Testing
Mocha, Chai

Back End
Node, Express, SQL, MySQL, MongoDB

PROJECTS

SHADOW LANDS
Ecommerce Platform POC

▷ Built a web server using Node/Express and ES6 to filter and serve clean data

▷ Architected a performant front-end using React for a seamless user experience

▷ Utilized SQLite to query and manipulate product and user data

▷ Designed a responsive page layout using HTML5 and CSS3

▷ Integrated Axios to efficiently query Express server for product data from React app

WORK EXPERIENCE

Attorney @ Law Offices of Ross & Hill
January 2015 - January 2019

▷ Presented oral arguments succesfully before the Court in hearings and other proceedings

▷ Implemented case management software to significantly increase firm efficiency

▷ Negotiated and mediated resolutions to personal injury/wrongful arrest cases

▷ Analyzed extensive documents in order to formulate coherent legal theories

▷ Conducted trials before juries to provide strong and fair representation for clients

EDUCATION

HACK REACTOR
2019
Advanced Software Engineering Immersive

FLORIDA STATE UNIVERSITY
2014
Juris Doctor in Law

CENTRAL FLORIDA UNIVERSITY
2010
Bachelors Degree in Economics

PERSONAL

The highlight of this year so far for me was eating a meal one table away from Jay-Z and Beyonce. Proud owner of three beautiful guitars that I wish I were better at playing. The previous highlight of the year (stated above) will be overshadowed by the final season of Game of Thrones.
